

STANDARDS FOR HOMESTAY

The Australian Homestay Network (AHN) recognises the need for stringent standards and best practices in the homestay industry.

AHN has identified and implemented eight key standards critical to the success of homestay accommodation in Australia and abroad. These standards have been recommended for government legislation of homestay.

The eight standards implemented by AHN are:

1. Online registration for students and hosts
2. Liability and property insurance for students and hosts
3. Training for hosts
4. Signed agreements stating obligations for hosts
5. Documents to orientate foreign students
6. Documents to guide students and outline responsibilities of hosts
7. Emergency phone support for students and hosts
8. Management of payments made on behalf of students to hosts

AHN standards exceed industry requirements and averages. They have been broadly adopted by Australian education providers as the selection criteria for homestay providers.
