The first thing that comes to my mind when I think about Canning College is the teachers. They are very helpful, friendly and are always available to help with anything you need. I still remember the first day I arrived in Perth. Some staff members from Canning College were waiting for me at the airport and with a very warm welcome. They brought me to a big shopping mall and to the bank to open an account. It was just something I would never expect a teacher to do! Canning College helped me with accommodation and I lived with a lovely Australian family. They were really nice and I still keep in contact with them.
